Madras.

M.R.Ry. Ponnuswami Sanjiviraya Pillai Arokianathan Pillai, Sub-Inspector, Madras Police.—At noon on the 30th August 1933 serious rioting broke out between Muhammadans and Adi Dravidas at Ambur. A large mob of excited Musalmans rapidly collected and attacked an Adi-Dravida religious procession fiercely with knives, sticks and brick-bats. Many were injured on both sides. Sub-Inspector M.R Ry. Ponnuswami Sanjiviraya Pillai Arokianathan Pillai with the local Sub Magistrate and nine local constables placed themselves between the contending parties. Only four of the police party were armed. They became the target for missiles from all directions and all of them sustained injuries. The police party stood staunchly in this dangerous situation until other means having failed, it became necessary to open fire. This eased the situation somewhat, as one party dispersed, but the other maintained a defiant attitude. The latter were kept at bay for three hours until reinforcements arrived. The cool and courageous conduct of the Sub-Inspector undoubtedly saved a very serious situation.

N.B.—This award is made for gallantry under regulation 4(2) (i) of the regulations governing the Grant of the Indian Police Medal and consequently carries with it the special allowance admissible to officers of and below the rank of Inspector of Police.

Fort St. George, May 14, 1934
[G.O. No. 494, Public (Services).]

No. 80.—In G.O. No. 838, Public (Services), dated the 14th November 1933, the Government directed that an examination fee shall be levied in the following cases :—

(*i*) where a test or Government technical examination is prescribed as part of the probation and training of an officer whether recruited direct or by transfer ;

(*ii*) where it is prescribed as a qualification necessary for an officer to continue in his post without penalty ; and

(*iii*) where it has been newly imposed on a person already in the service concerned.

The question has been raised of the number of chances in respect of which an officer is eligible for the concession. The Government do not consider it necessary to limit the number of chances where the examination or test is prescribed as part of probation and training. In other cases Government direct that the concession be limited to two chances for each test or examination.

No. 198.—The Governor General in Council hereby makes the following rules for the regulation of admission to the Indian Military Academy by examination in India which will be held in October 1934 :—

RULES.

1. (i) A candidate who desires to be examined in India shall apply to be admitted to the examination before such date and in such form as the Governor General in Council may prescribe. The application shall be made through the Collector or Deputy Commissioner of the district in which his parents reside at the time of the application, or have previously resided for a period of not less than three years, or in which he has himself resided, otherwise than as a student at an educational institution only for a like period.

(ii) In the case of Calcutta applications shall be submitted through the Commissioner of Police.

(iii) Cadets of the Prince of Wales's Royal Indian Military College, Dehra Dun, shall submit their applications through the Principal of the College.

(iv) A candidate resident in an Indian State shall submit his application through the Darbar, who will forward it to the Political Officer or Agent.

(v) No candidate shall make more than one application in respect of this examination.

2. A candidate must be an unmarried man and either—

(a) a British subject of Indian domicile whose father (if alive) is a British subject or a subject of a State in India, or (if dead) was at the time of his death either a British subject or a subject of a State in India, or a person in the permanent service of the Crown or a person who had retired from that Service ; or

(b) a subject of a State in India in respect of whom the Governor General in Council has made a declaration under section 96 A of the Government of India Act :

Provided that in the case of a British subject the requirements of this rule may be waived by the Secretary of State in Council if he is satisfied that their observance would occasion exceptional hardship, and that the candidate is so closely connected by ancestry and upbringing with His Majesty's dominions as to justify special treatment.

3. A candidate must furnish a declaration from his father or guardian, in the form prescribed, that the latter is in a position, and will be prepared to discharge the financial obligations attaching to the candidate's training at the Indian Military Academy, Dehra Dun. If such candidate is selected for admission, the parent or guardian will be required to covenant with the Secretary of State for India in Council that in the event of failure to comply with certain contingencies set forth in an Indenture relating to the completion of the course at the Indian Military Academy, and thereafter, the acceptance of a commission in the Indian Land Forces and the period he is required to hold such a commission, he will pay the full cost which the Government of India shall have expended on the admission of the cadet at the Academy.

4. The maximum number of candidates to be admitted to the examination may, in the discretion of the Governor General in Council be limited to such number as the Governor General in Council may decide. If a limit is imposed and the number of candidates exceeds that limit, the Public Service Commission shall select from among the applicants those who shall be admitted to the examination and shall have regard in so doing to the suitability of the applicants for employment as commissioned officers in the Indian Army.

5. A candidate for this examination must attain the age of 18, and must not attain the age of 20, by the first day of November, 1934.

6. A candidate must be in good mental and bodily health and free from any physical defect likely to interfere with the efficient performance of the duties of a commissioned officer in the Indian Army. A candidate who, after examination by a Medical Board, is found not to satisfy these requirements will not be accepted for admission to the Academy.*

7. A candidate must satisfy the Public Service Commission that he is suitable in all respects for employment as a commissioned officer in the Indian Army.

8. No candidate shall be admitted to the examination unless he holds a certificate of admission from the Public Service Commission.

9. No recommendations except those invited in the form of application will be taken into consideration. Any attempt on the part of a candidate to obtain support for his application by other means may disqualify him for admission.

10. (a) A candidate who competed in the examination held in March/April 1934, and failed to obtain a qualifying mark, will not be allowed to compete at the examination to be held in October 1934, unless he is ineligible by age to compete at any later examination.

(b) No candidate who fails to obtain a qualifying mark at this examination will be allowed to compete at the next examination unless that examination is the last at which he would be qualified by age to compete.

11. Candidates must pay the following fees :—

(i) Rs. 7–8–0 with the application form,

(ii) if accepted for admission to the examination, Rs. 50 immediately after the receipt of the certificate of admission.

PUBLIC SERVICE COMMISSION (INDIA).

NOTICE

A competitive examination will be held in Delhi, on the 15th October 1934, and subsequent days, for entry to the Indian Military Academy, Dehra Dun, at the term beginning on the 1st February 1935, and also for entry to the Royal Indian Marine.

2. The examination will be a combined examination for the purpose of filling vacancies in the Indian Military Academy and the Royal Indian Marine. A candidate may apply to be admitted to the examination for both or either. If he wishes to be admitted as a candidate for

both, he should state this on his application form. Separate applications are not required. He will be required to pay the application and examination fees once only. If he proves successful as a candidate for both the Indian Military Academy and the Royal Indian Marine, he will ordinarily be assigned to the one for Marine, he will ordinarily be assigned to the one for which he expressed a preference in his application, but the Government of India reserve power to assign him to either.

3. At this examination 18 vacancies will be offered for entry to the Indian Military Academy. The Governor-General in Council, however, reserves to himself the right to fill the last three vacancies by nomination from among those who have qualified but failed to obtain sufficient marks to secure one of the first twelve vacancies. One vacancy will be offered for admission to the Engineering Branch and one vacancy to the Executive Branch of the Royal Indian Marine.

4. The examination will be the same for all arms of the Indian Army, i.e., Cavalry, Artillery, Signals, Engineers and Infantry. Those cadets who wish to elect for the Artillery, Engineers and Signals will be permitted to do so during their course at the Academy, at the discretion of the Commandant, provided they obtained 40 per cent of the maximum marks in each of the subjects, Lower Mathematics and Physics, at the examination.

5. Candidates for the Indian Military Academy examination must be over 18 and under 20 years of age on the 1st November 1934, unmarried and domiciled in India. Candidates for the Royal Indian Marine examination must be over 17 and under 19 years of age on the 1st May 1934, unmarried and domiciled in India. A candidate who desires to appear at the examination is required to submit his application in the prescribed form with the necessary documents on or before the 1st July 1934, in accordance with the instructions given on that form. Copies of the Application Form, together with the rules relating to the examination, may be obtained from the Secretary to the Public Service Commission, Kennedy House, Annexe, Simla.

THE FACT THAT AN APPLICATION FORM HAS BEEN SUPPLIED, ON WHATEVER DATE, WILL NOT BE ACCEPTED AS AN EXCUSE FOR THE LATE SUBMISSION OF AN APPLICATION. CANDIDATES WHO DELAY THEIR REQUESTS FOR FORMS UNTIL A LATE DATE WILL DO SO AT THEIR OWN RISK.

6. Applications should be sent by registered post. If a candidate fails to register his application, he does so at his own risk. If a candidate desires an acknowledgment, he should also send his application "acknowledgment due."

NOTE.—If any candidate has appeared at the March/April 1934 examination and, in the event of his not being successful thereat, wishes to appear at the October examination he must submit his application by the prescribed date without waiting for the results of the former examination. Should he have been successful, his candidature for the October examination will be cancelled.

IV

SYLLABUS

OF SUBJECTS FOR THE ENTRANCE EXAMINATION TO THE INDIAN MILITARY ACADEMY AND THE ROYAL INDIAN MARINE

PART I.

1. *Interview and Record.*—The object of the interview is to ascertain whether the candidate is suitable in respect of personality and other matters for the position of a commissioned officer in the Indian Army.

2. *English.*—The questions will be designed to test the candidates understanding and command of the language. A passage will usually be set for summary or précis.

3. *General Knowledge.*—The questions will be designed to test the candidate's knowledge of and interest in current events and in such other subjects as should be within the knowledge of Indian candidates of the prescribed age. The paper may include a general question or questions on literature.

4. *Elementary Mathematics.*—(i) Arithmetic, including problems about money, imperial and metric weights and measures, mensuration, percentages and averages.

Knowledge of recurring decimals, scales of notation, stocks and shares, foreign exchange, and true discount is not required. Contracted methods are not required; when an approximate result is required candidates may work with all the figures supplied or make legitimate discards at any stage. The arithmetical rules for square and cube root are not required.

An arithmetical result may be required to a certain approximation or the data may themselves be only approximate. In such a case, to give the result to a greater degree of accuracy than is asked for, or is justified by the data, will entail loss of marks. Candidates are expected to understand such phrases as "three significant figures", "four-figure accuracy."

(ii) A sound appreciation of the following properties of plane figures will be expected, but proofs of these properties will not be asked for —

Properties of angles at a point, e.g., that vertically opposite angles are equal.

Congruence properties of triangles, i.e., the nature and number of the conditions that determine a triangle.

The conditions of similarity of two triangles, i.e., the conditions which determine the shape of a triangle.

The following plane loci: the locus of a point equidistant from two fixed points, and the locus of a point within a given angle at equal perpendicular distances from the arms of the angle.

The condition of the parallelism of two straight lines in its various forms.

Proportion properties of parallels, the treatment of incommensurables not being required.

Perimeter and area of a circle.

Surface-areas and volumes of prisms, cylinders, pyramids, cones, with such simple problems on these figures as can be solved by the geometrical properties mentioned in this and the next paragraph.

Surface-area and volume of a sphere.

The representation of the simplest three-dimensional figures by means of plan and elevation.

(iii) Of the following properties a sound appreciation will be expected, and proofs may be asked for. Candidates may base their proofs on the properties mentioned in the preceding paragraph or on other grounds:—

The Angle sum property of a triangle.

Properties of the parallelogram.

Solution of right-angled triangles by drawing and by the use of tables of trigonometrical functions.

Pythagoras' theorem and the converse.

Similar figures.

Measurements suitable for determining the position of a point in a plane, or in space.

Measurement of the angle between two planes, and between a line and a plane.

(iv) Algebraic calculation in connection with the above geometrical properties and with other problems, including: the expression of an arithmetical generalisation in a formula, the interpretation of a formula, evaluation of a formula for numerical values of its variables; linear and quadratic equations with numerical co-efficients; simple instances of varying magnitudes, statistical and mathematical, treated by means of graphs and otherwise; inversion of a formula (or change of the subject of a formula); use of logarithms; gradient of a graph.

A knowledge of algebraic square root and the theory and use of negative and fractional indices will not be expected. Questions will not be set upon lowest common multiple or highest common factor. Little skill is expected in algebraic manipulation, as, for instance, in long multiplication and division, factorization, transformation of expressions, identities, inequalities, and the simplification of fractions; only such manipulation will be expected as arises naturally out of simple problems.

(v) *Mode of Treatment.*—(a) Grasp of elementary principles and readiness in practical application will be looked for. Numerical results should be worked out to a few significant figures. Candidates may be required to apply checks of the accuracy of particular results, they may also save themselves from blunders by applying checks even when not demanded. No great skill in the use of drawing instruments will be expected, but slovenly work will entail loss of marks.

(b) Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases. The use of mathematical symbols and of well established abbreviations such as "lb." and

'gm.' is permissible; a calculation can often be exhibited clearly without the use of words, and a tabular form is often appropriate; but abbreviated sentences such as are appropriate in telegrams will involve loss of marks.

5. *Geography.*—The general and political geography of the world. One half of the paper will be on general elementary geography and the other half on imperial geography. A special knowledge of India and neighbouring countries will be expected. Questions on physical and economic geography may be set. The paper will not be of an advanced character.

PART II.

N.B.—Although choice between the various subjects of Part II is not restricted, candidates who aspire to commissions in the Artillery or the Engineers are reminded that for the studies they will have to undertake at the Indian Military Academy the most useful subjects to take up in Part II are Lower Mathematics and Higher Mathematics or Physics.

6. *French.*—Translation from French into English and from English into French; free composition, oral conversation. Two hundred and twenty-five marks are allotted to the paper or papers on this subject and 75 marks for oral conversation.

8 and 9. *Mathematics.*—Credit will be given for the clearness and aptness of the language of the answers; deductions will be made for obscurity or slovenliness, and especially for bad grammar and the incorrect use of words or phrases.

The use of mathematical symbols and of well-established abbreviations like lb. and cm. is permissible; a calculation can often be exhibited quite clearly without the use of words, and a tabular form is often appropriate; but incomplete sentences such as are customary in telegrams will involve loss of marks.

PART III

14. *Outlines of English History from* 1485.—The questions will be designed to test such knowledge and understanding of English history as an Indian boy may be expected to have acquired at school by the age of 18. So much knowledge of foreign history as is necessary in order to understand the history of the United Kingdom; and such knowledge of geography as is necessary for the comprehension of history will be expected. The questions will not be questions upon details, and exact dates will be expected only for the great landmarks; but accurate knowledge of the outlines will be expected and illustrative detail strictly relevant and correctly presented will receive credit. A liberal choice of questions will be allowed.

15. *Elementary Science.*—The questions will be on matters mainly physical, chemical, biological and hygienic. Such knowledge will be expected as a boy who has studied the subject intelligently at school up to the age of 18 ought to have. A liberal choice of questions will be given.

16. *Freehand Drawing.*—There will be two tests in drawing. (i) In the first a photograph or other representation of a landscape will be set before the candidate, who will be required to make an outline sketch of it in the style of a military panorama. The drawing should be in black and white and should show with a few lines all the important features of the landscape, so that officers using the sketch as action should be able to grasp the nature of the position and rapidly identify its landmarks. Correct proportions are essential. A conventional form of shading with oblique parallel lines may be used, but this must be strictly confined to parts of the sketch where such definition is helpful to the clearness of the whole.

Candidates are advised to practise drawing the simple crest lines of actual landscapes. Manual of Map Reading, Photo Reading and Field Sketching, 1929, articles 72, 73, 74 and 76 should be consulted. This book can be purchased from the Manager of Publications, Delhi. [Price Rs. 2-4-0.]

(ii) In the second test candidates will be asked to draw from memory some common object, such as a chair or a saddle.

17. *Geometrical Drawing.*—The neat and accurate use of the pencil, ruling pen, compass, scales, protractor, set squares. The application of geometrical drawing to simple problems in plain geometry.

The construction of ordinary and diagonal scales. The setting out of words in good lettering.

V

ANDHRA UNIVERSITY.

NOTIFICATION.

INSTRUCTIONS TO CANDIDATES APPEARING FOR THE EXAMINATIONS TO BE HELD IN SEPTEMBER AND NOVEMBER 1934.

Candidates for University Examinations are required to observe the following instructions very carefully:—

1. Silence should be maintained in the examination room.

2. Candidates should take their places in the examination hall at least five minutes before the time fixed for distributing the papers. Candidates presenting themselves more than half an hour after the appointed time will not be admitted to the examination hall. Candidates who are undoubtedly suffering from infectious diseases of any kind will not be admitted.

Candidates should bring with them to the examination hall each day of the examination their hall tickets for inspection by the Chief Superintendent.

3. Candidates are prohibited from writing upon their hall tickets or question papers. Candidates are also prohibited from writing their names on any part of their answer books, but their register numbers should be written very distinctly on the outer cover of each answer book. Failure to write their register numbers may involve the rejection of answer papers.

4. Candidates are not allowed to exceed the time assigned to a paper.

5. No candidate will be allowed to leave the examination room till the expiry of at least half an hour after a question paper has been given out; and no candidate who leaves the room during the period allotted for a paper will be allowed to return within that period.

6. *Candidates are forbidden to ask questions of any kind during the examination. They are further forbidden to communicate with the examiners; should they do so their answers will not be valued and their conduct will be reported to the Syndicate for disciplinary action.*

7. Candidates are not allowed the use of books of any kind (except as provided in rule 8). They are also prohibited from introducing into the examination room any book or portion of a book, slate, blotting pad, cardboard, manuscript, or paper of any description and from making use of any of these whether introduced into the room by themselves or by any one else; from communicating with or copying from each other; and from communicating with any person outside the examination room. Any candidate detected in the violation of these rules will be summarily sent out of the room forthwith, and his conduct will be reported to the Registrar. Such a candidate stands the risk of having all his answer papers for the examination for which he has appeared rejected by the Syndicate and of being debarred from sitting for the University examinations for such period as the Syndicate may decide.

The use of stencils at University examinations is not permitted except to students answering papers in Mathematics. The use of mathematical instruments will be allowed to students answering papers in Mathematics and in the Physical Sciences will be allowed. Such instruments will not be supplied by the University.

8. Clarke's Mathematical and Physical Tables will be supplied to candidates in Mathematics, Physics, Chemistry, Chemical Technology and Geography of the Intermediate, B.A., B.Sc., B.A. (Honours), B.Sc. (Honours) and Pre-Registration examinations only. Candidates should not bring into the Examination Hall their own copies.

9. Candidates for examination in Science subjects shall submit their laboratory note-books to the Examiners concerned on the first day of the practical examinations. Each of the candidates taking Botany as the main subject for B.Sc. Degree examination must submit at the practical examination his laboratory note-book, a collection of the named plants collected and preserved by himself and a record of the field work. The candidates should get back the laboratory note-books at the close of the examination.

10. Candidates are required to provide themselves with their own pens. Candidates may bring into the examination hall their own ink bottles. They must, however, use only black ink while answering their question papers.

11. Particular attention is requested to the instructions, regarding rough working and loose sheets of paper printed on the answer books. All rough working must be shown on the left hand page of the answer books themselves. No separate books for rough working will be supplied to candidates. Papers must not be detached from the answer books of candidates. If the ordinary answer books are found insufficient, additional books will be allowed and these should be securely fastened to the answer books.

12. When candidates have finished writing their answers, and wish to give up their answer books, or at the end of the period prescribed for each particular part of the examination, each should stand up in his place and remain standing until one of the superintendents has gone up to him and has received his answer book from him.

13. Candidates sitting for the examinations at the different centres should apply to the Chief Superintendent of the respective centre for their hall tickets three days before the commencement of the respective Examinations. *Any particulars noted in the hall ticket differing from those given in the application for the examination should be immediately reported to the Chief Superintendent by the concerned candidate.*

14. *No college student will be allowed to select a centre for his examination other than that in which the college he studies is situated, except for satisfactory reasons and on the recommendation of the Principal of his college.*

15. *A candidate who underwent his course of study in an affiliated college but appears for the examination a second or a subsequent time, having failed previously, should also select the same centre in which the college he studied is situated, except under extraordinary circumstances.*

16. *Candidates appearing at centres where they are not known must be prepared to satisfy the Chief Superintendents of such centres as to their identity. They shall also be required to place their signatures upon the identification certificates produced by them before the Chief Superintendents of the respective centres. The officer from whom the identification certificate is produced should be the Principal of a college or a Government officer of a rank not less than that of a Sub-Magistrate.*

TENDERS will be received by the Executive Engineer, Kistna Western Division, at his office at Bezwada up to 4 p.m. on Monday, the 4th June 1934, for the work "Remodelling the Kuchinapudi channel."

2 Tenders must be submitted in sealed covers, and should be addressed to the Executive Engineer, Kistna Western Division, the name of the tenderer and the name of the work being stated on the cover.

If the tender is made by an individual, it shall be signed with his full name and his address shall be given. If it is made by a firm, it shall be signed with the co-partnership name by a member of the firm, who shall also sign his own name, and the name and address of each member of the firm shall be given. If the tender is made by a corporation, it shall be signed by a duly authorised officer who shall produce with his tender, satisfactory evidence of his authorization. Such tendering corporation may be required, before the contract is executed, to furnish evidence of its corporate existence.

3 Each tenderer must pay as earnest money, a sum of Rs. 400 (rupees four hundred only) into the branch of the Imperial Bank of India or into the Government treasury or sub-treasury within the jurisdiction of the Executive Engineer concerned, to the credit of revenue deposits on behalf of the Executive Engineer of the Kistna Western Division and enclose with his tender the chalan endorsed accordingly. This earnest money will be refunded to the unsuccessful tenderer on application, after intimation is sent of rejection of the tender or at the expiration of two months from the date of tender, whichever is earlier. This refund will be authorized by the Executive Engineer by suitable endorsement on the chalan. The earnest money will not be received in cash or currency notes by the Public Works Department officers, save in exceptional cases, where there are no treasuries or banks within the jurisdiction of the officer calling for tenders. When currency notes are given, the tenderer should sign his name in full with date on the back of all the currency notes given by him whatever their denominations may be.

The earnest money will be returned in the case of the successful tenderer, and will not carry any interest. It will be dealt with as provided in the tender.

4 When a tender is to be accepted, the tenderer whose tender is under consideration shall attend the Division office on the date fixed by written intimation to him. He shall forthwith upon intimation being given to him by the Executive Engineer of acceptance of his tender, sign an agreement in the departmental K-3 form for the due fulfilment of contract. Failure to enter into the required agreement shall entail forfeiture of the earnest money.

5. To give to prospective tenderers an idea about the nature and volume of work to be done and to enable them to quote suitable rates a schedule of approximate quantities is furnished. It shall however be definitely understood that the Government does not accept any responsibility for the correctness of the schedule and that it is liable to alterations by omissions, deductions or additions. The several items of work noted in the schedule are to be executed as per the Madras Detailed Standard Specifications or supplemental specifications for which reference is given against each. The tenderer should carefully study the drawings, specifications and all the documents relating to the work to execute which this tender is called for. These can be seen at any time between 11 a.m. and 5 p.m. on office days in the office of the Executive Engineer, Kistna Western Division, Bezwada.

6. The tenderer's particular attention is drawn to the conditions and to the directions to parties tendering, detailed on the K-3 agreement form and also to the sections and clauses in the Standard Preliminary Specifications of the Madras Detailed Standard Specifications dealing with (a) Materials and workmanship—Section D, clauses 20 to 27—and (b) included in the contract rates —Section E and clauses 33 to 41 and 43.

7. Every tenderer is expected, before quoting his rates, to inspect the site of the proposed work. He should also inspect the quarries, and satisfy himself about the quality and availability of materials. The names of quarries, kilns, etc., wherefrom certain materials are to be obtained will be given in the Descriptive Specification Sheet. The best class of materials to be obtained from the quarries or other sources defined shall be used on the work. In every case the materials must comply with the relevant standard specifications. Samples of materials as called for in the standard specifications, or in this tender notice, or as required by the Executive Engineer, Kistna Western Division, in any case, shall be submitted for the Executive Engineer's approval before the supply to site of work is begun. If the contractor, after examination of the source of materials defined in the Descriptive Specification Sheet, is of opinion that materials complying with the standard or other specifications of the contract cannot be obtained in quality or sufficient quantity from the source defined in the Descriptive Specification Sheet, he shall so state clearly in his tender and state wherefrom he intends to obtain materials, subject to the approval of the Executive Engineer, Kistna Western Division.

The Government will not, however, after acceptance of a contract rate pay any extra charges for lead or for any other reason, in case the contractor is found later on to have misjudged the materials available. Attention of the contractor is directed to the standard "Preliminary Specification" regarding payment of soiguerage, tolls, etc.

8. The rate tendered should be for finished work in situ inclusive of all incidental charges connected with the execution and should be quoted in rupees, annas and in sums of three pies. The rates should be written in words and figures and the units in words. The tender should be written legibly and free from erasures, over-writings or conversion of figures. Corrections where unavoidable should be made by crossing out, initialing, dating and rewriting.

9 Tenders offering a percentage deduction from or increase on the estimate amount, and those not submitted in proper form or in due time will be rejected. Rates or lump-sum amounts for items not called for shall not be included in the tender. The tenderer should work out his own rates, without reference being made to the Public Works Department current schedule of rates, or to the Public Works Department estimate rates which are not open for inspection by tenderers.

10. The materials that will be supplied by Government and the places and rates at which they will be supplied, are noted at the end of the schedule accompanying the tender form. Tenderers must accept the materials at these rates and places specified, and shall quote their rates for finished work accordingly. Notwithstanding any subsequent change in the market value for these materials, the charge to the contractor will remain as originally entered in the written contract. No cartage or incidental charges will be borne by Government in connexion with this supply.

11. No part of the contract shall be sublet without written permission of the Executive Engineer nor shall transfer be made by power-of-attorney authorizing others to receive payment on contractor's behalf.

12 If further necessary information is required the tenderer will furnish such, but it must be clearly understood that tenders must be received in order, and according to instructions.

13. The Executive Engineer or other sanctioning authority reserves the right to reject any tender or all the tenders without assigning any reason therefor.

14. No extra payment will be made for any baling of water that may be required during the execution of the work. The same shall be included in the rates for the respective items.
